

# Religiana

## Religiana is a project of Future for Religious Heritage (FRH)

FRH was established in 2011 as the only independent, non-faith, non-for-profit European network working to safeguard religious heritage. The network has more than 150 members in 35 countries and promotes collaborative projects and the exchange of best practices throughout Europe.

### THE CONCEPT

Religiana is a project that brings places of worship to visitors, by giving them Europe-wide visibility.

The output of the project is the Religiana website, hosting more than **3,000** religious heritage sites from **46** countries, and constantly expanding.

The website provides visitors with accurate information on opening hours and key characteristics on sites.

Religiana website is a gateway to partner organisations, it redirects our visitors to their websites.

The screenshot shows a detailed profile for the 'Fortified Church in Hosman'. It includes a main photograph of the church in a valley, a map showing its location in Romania, and a sidebar with contact details and external links. The text describes the church's historical significance and architectural features.

*Customised building profiles with your logo and link to your website*

### EVOLUTION OF THE PROJECT

- The number of buildings on our website has tripled this year, and **all European countries** are now covered.
- **Partnerships** have been developed with many organisations whose buildings now appear on Religiana.
