

Sanctuaries for peace

Rethinking the role of sanctuaries in contemporary society.

Sacred places as active assets of peace.

TODAY'S CHALLENGES

- Growing loneliness 
- Loss of meaning and identity 
- Environmental crisis 
- Social fragmentation 
- Health issues 

SANCTUARY

A sacred and living heritage site where spirituality, community, culture and place come together.

PEACE

A holistic process fostering inner wellbeing, dialogue, environmental stewardship and community engagement.

PROJECT OBJECTIVES

-  Rethink the role of sanctuaries
-  Promote a holistic understanding of peace
-  Connect heritage, spirituality and nature
-  Develop a collaborative sanctuary network

Sanctuary-based Solutions

UdG Actions

Sanctuaries are living places deeply rooted in their territories and communities. The project aims to translate research into action through collaboration with sanctuaries and local stakeholders, fostering initiatives that contribute to community wellbeing and sustainable territorial development.

Research Inventory & mapping of sanctuaries Identifying values & characteristics Documentation & knowledge generation		Network Building Engagement with sanctuary managers Collaboration with local stakeholders Building a collaborative sanctuary network		Pilot Actions Walking routes connecting sanctuaries Nature & wellbeing experiences Testing innovative initiatives
